

W. Y. MORGAN

W. Y. Morgan, lieutenant governor of Kansas, is chairman of the press bureau of the western Republican campaign committee. All his adult life Mr. Morgan has been a newspaper man and he is now the editor of the Hutchinson (Kan.) News.

CRUISER MEMPHIS DRIVEN ON ROCKS

Ground Swell Wrecks Vessel
in Santo Domingo Harbor;
Number of Crew Lost.

Santo Domingo, Aug. 30.—The United States cruiser Memphis, formerly the Tennessee, was driven on the rocks of the outer harbor here by a great and sudden ground swell. It is believed that many lives have been lost. The vessel was literally hurled from the waters and onto the rocks.

All the fires beneath the boiler were extinguished by the sudden inrush of water. This left her at the mercy of the sea. The United States gunboat Castine escaped a similar fate by putting to sea.

The two warships were units in the cruiser squadron of Rear Admiral Charles F. Pond. The squadron has been in West Indian waters several months due to the unsettled internal conditions in Haiti. The Memphis was the flagship of the squadron.

There had been serious weather disturbances throughout the West Indies for the past few days. These culminated in a swell which played havoc with shipping.

The harbor here is considered one of the most dangerous roadsteads in the world. It is open and affords but little protection to ships. As soon as the news of the disaster reached the city scores of small boats hurried to the harbor in the hopes that they could be of assistance in the rescue work. The government of Santo Domingo has also rushed aid.

Few details of the state of the Memphis are obtainable.

The city authorities have made all arrangements for the care of the dead and injured if their services are needed.

Washington, Aug. 30.—The navy department has received advices from Santo Domingo stating that the cruiser Memphis is a total loss and that 20 of the crew were drowned.

The dispatch said: "Lines are ashore. It is hoped to save all that are left of the crew. The gunboat Castine was driven close to shore, but escaped injury."

PRESIDENT SIGNS BILLS

ARMY AND NAVY MEASURES ARE
NOW LAW; THE MOVIES
RECORD ACT.

Washington, Aug. 30.—President Wilson completed the administration preparedness legislative program by signing the army and navy appropriation bills. At the same time he signed the Philippine bill.

He was surrounded by chairmen and members of the house and senate committees and army and navy officers. Moving picture cameras recorded the event, and when he had signed all the bills the president spoke of his feelings in putting the finishing touches to the legislation.

"I think that the whole country will feel," said he, "that this congress has accomplished a very remarkable part of the program of national defense."

Will Take Case to Court.

Alliance, O., Aug. 30.—The civil service commission held against Police Chief R. R. France following a hearing on charges of misconduct brought against France by Mayor Westover. France's attorneys announced they would carry the fight against his removal to common pleas court.

Painesville Dentist Killed.

Cleveland, Aug. 30.—Dr. W. H. Fowler, 78, prominent Painesville dentist, was almost instantly killed when he stepped in the path of a motor hose truck on the way to a fire.

Two Golden Rules

There are two golden rules that ought to be written on every heart. Never believe anything bad about anybody, unless you positively know it is true. Never tell even that, unless you feel that it is absolutely necessary, and that God is listening while you tell it.

—Henry Van Dyke.

Kansas has fewer millionaires than any other state in the union. Also it has fewer paupers.

ROUMANIAN TROOPS STRIKE AT ONCE

Form Juncture With Russians
and Are Attacking Austrians
in Carpathians.

London, Aug. 30.—Military developments have been rapid following the announcement of Roumania's entrance into the war. Roumanian troops are striking against Hungary at three points, according to news reaching here. King Ferdinand has gone to the front to join the general staff at main headquarters, having before his departure from Bucharest issued an order mobilizing all arms of the service.

Have Formed Juncture.

On the frontier of Bukovina, Roumanian and Russian troops already have effected a juncture and are attacking the Austrians in the Carpathian foothills under the direction of the Russian, Gen. Letchitzky.

Preparations also are being made, it is stated in the Petit Parisien of Paris, for the junction of Russian and Roumanian corps on the Danube. The first contact will be established, it is believed, at Tulcea, near the mouth of the Danube, on Roumanian soil.

In the Transylvanian Alps the Roumanians are fighting on Austro-Hungarian soil, but owing to the nature of the ground and the fact that the main forces have not yet come into collision, no important result has yet been attained. The objectives of the Roumanian attack are three strongly fortified passes, Rotherthurn, Torsburg and Toemoe, seizure of which would open the road to the important industrial cities of Kronstadt and Hermannstadt to the Roumanians.

Scarcely had the premiers of the entente nations welcomed into their councils the premier of their latest ally before word came from Berlin that the German government had practically given up hope of preventing Greece from joining the entente.

Confidence is expressed in Berlin that Bulgaria will declare war on Roumania in the near future and strike immediately along Roumania's southern border. From other sources, however, comes information diametrically opposed to this belief.

Bad Weather Hampers Operations.

Heavy thunderstorms continued to hamper operations on the Somme front, precluding any action on a large scale. The big guns of both sides, however, boomed throughout the last 24 hours, battering the opposing positions to prevent the consolidation of new positions and paving the way for infantry attacks as soon as the weather permits. Despite the inclement weather, the British succeeded in gaining additional ground. They captured a German barricade between Delville and Fauroux woods and made further progress east of Thiépval. They repulsed a Teuton attack with minor forces against the British trenches around the Pozieres windmill.

"Appreciable progress" is claimed by the French on the Verdun front. Before beating off two German attacks on the village of Fleury and near Fort Vaux, the French gained a considerable advance southeast of the Thiépval field work.

BANDITS WRECK BANKS

BLOW TWO SAFES, SECURE \$13,000 AND MAKE ESCAPE IN AN AUTOMOBILE.

Champaign, Ill., Aug. 30.—Six men in an automobile descended on Homer, an small village 15 miles east of here, and blew the safes in two banks, escaping with \$13,000.

Before setting off the charges of nitroglycerin they cut all telegraph and telephone connections out of the town except the Illinois traction system wire, over which Sheriff Evans of Urbana was summoned. The interiors of both banks were wrecked. Silver money was scattered in the vaults and the banking rooms.

TROOPS ARE PREPARED

HAVE RATIONS ENOUGH TO LAST FOR 60 DAYS IN CASE OF RAIL STRIKE.

San Antonio, Tex., Aug. 30.—Border troops now are provisioned 60 days ahead, Gen. Funston said, discussing the situation in which the military would find itself if there should be a strike of railroad trainmen of the country.

Forage for mules and horses soon would be exhausted, however, he added. The war department has been rushing food and provisions southward in large quantities since the strike situation became threatening.

Auto Capsizes, Driver Killed.

Corry, Pa., Aug. 30.—Ralph Peters, 25, was killed when his auto turned over. His wife and child escaped injury.

MINISTER PATENTS A DEVICE

Invention Holds Sheet or Book Before Typists Eyes.

Rev. Gustav A. Weishaar of Brazil, Ind., has been granted patent on a copy holder for a typewriter. His invention consists of a folding metal framework, which can be attached to any modern standard make of typewriter. The framework supports a folding rack somewhat similar to that on a music stand. This is arranged to hold either sheets of paper or a book.

Rev. Weishaar said that in getting up his sermons he often desired to quote directly from books and he found it very inconvenient to lay the book to one side of the typewriter and thus read the copy with desired speed.

Dispatch job printing will please you.

ELISHA LEE

Elisha Lee, assistant general manager of the Pennsylvania railroad, is spokesman of the managers' committee of 19, which, the rail presidents insist, was empowered to make final negotiations in the strike situation.

FIFTH REGIMENT IS ON WAY TO TEXAS

Leaves Columbus for South in
Three Sections; Destination Is El Paso.

Columbus, Aug. 30.—The first of the Ohio troops are on their way south. After a day of delay the last of three sections of the 5th regiment was started from Columbus Tuesday at 6:20. Two other sections were sent away, one at 1:55 p. m. and the other at 5:13 p. m.

The Fifth regiment was slow in enlisting, officers said. Arrangements had been made for the departure of the regiment in three sections, leaving at 10, 12 and 2 o'clock. Delays of various kinds spoiled this schedule.

The baggage of the troops was not at the railroad yards when the troops arrived. When the baggage was finally brought from the camp it was found that there was no suitable car for the transportation of the officers' horses. Late in the afternoon two cattle cars were provided and the horses were loaded in these and sent with the second section.

The "entraining" was seen by only a few people. Less than 200 were around the Baltimore & Ohio Southwestern yards when the first battalion arrived from Camp Willis, led by its band, playing "It's a Long, Long Way to Tipperary." There were a few cheers as the men swung around the corner and marched alongside their Pullmans.

Gov. Frank B. Willis visited the yards during the day and talked with the soldiers. He was given several cheers by different companies. The 5th regiment's destination is El Paso. It is going by way of New Orleans.

Col. C. X. Zimmerman of Cleveland, commander of the 5th, marched at the head of the first battalion as it left camp. The companies in this battalion were A of Berea, B of Elyria, C of Cleveland and D of Warren. The second battalion companies, which went out second, were E of Geneva, F of Cleveland, G of Norwalk and H of Youngstown. The third battalion companies, the last to leave, were I and K of Cleveland, L of Conneaut and M of Youngstown.

POLICE GUARD WOMEN

HOMES OF PROMINENT CITIZENS
BEING WATCHED BY PO.
LICE GUARDS.

East Liverpool, O., Aug. 30.—Police have obtained no clue to the identity of the person or persons who stoned the home of Mrs. John Anderson and Mrs. W. W. Sloan, wives of prominent merchants, to whom threatening notes have been sent in the past six weeks. The families live in adjoining houses.

Mrs. Anderson recently was attacked by an unidentified man after she received two notes. A week later Mrs. Sloan found a blackhand warning pinned to a screen door of her home.

An armed guard has been maintained nightly at the two homes.

Find Body Along Railway.

Defiance, O., Aug. 30.—While en route home Carl Speck found the mangled body of a man along the railroad tracks. A paper found on the body gave the man's name as Elden Stice, Atchison, Kan. It is believed the man was killed while attempting to board a freight train.

Bandits Blow Up Carranzistas.

Laredo, Tex., Aug. 30.—At least 50 Constitutionalist soldiers were blown to atoms when a train on the National lines was blown up at Celaya, Mexico, last Saturday, according to arrivals here. Destruction of the train was said to have been the work of bandits.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This is a medicine that every family should be provided with. Colic and diarrhoea often come on suddenly and it is of the greatest importance that they be treated promptly. Consider the suffering that must be endured until a physician arrives or medicine can be obtained. Chamberlain's Colic, Cholera and Diarrhoea Remedy has a reputation second to none for the quick relief which it affords. Obtainable everywhere.—adv.

SYNOD TO AID WOMEN

LUTHERANS VOTE \$10,000 TO
BUILD DORMITORY AT
SCHOOL.

Sandusky, O.—At the conclusion of a spirited discussion the Lutheran Synod of North America voted an appropriation of \$10,000 for the erection and equipment of a woman's dormitory at the Lutheran normal college at Woodville, O.

The synod of San Antonio, Tex., an offer of a sanitarium in San Antonio worth \$40,000, to be used for a tuberculosis hospital for indigent Lutherans.

Rob Collection Car.

Detroit, Mich.—Automobile bandies held up a Standard Oil Co. collection car on a lonely road near Dearborn, a Detroit suburb. They are reported to have obtained more than \$4,000. John Isbell, driver of the Standard Oil car, was taken from his machine, bound, gagged and left by the roadside.

Bank Commissioner Shot.

Dallas, Tex.—John S. Patterson, state bank commissioner, was shot and fatally wounded by E. R. Watson, president of the Farmers & Merchants State bank of Teague, Tex. Patterson had announced that he would have to close the bank because of alleged irregularities.

Bar Investigator Slain.

Cincinnati, O.—It has developed that Charles Williams, negro, who was shot and killed at Sharonville Saturday night, was a secret agent in the employ of William Farrell, chief deputy liquor license inspector for this district. Farrell is of the opinion that the secret work of Williams was known.

Henry Henderson, a negro, is locked up at Sharonville as a result of the killing. Farrell says he had Williams at work because of suspected bootlegging.

Zeppelins Kill 8, Hurt 36.

London, England.—Eight persons were killed and 36 injured in the Zeppelin raid Thursday night. It was officially announced. One hundred bombs were dropped. One Zeppelin reached London, according to the statement, which follows:

"Reports show five or six enemy airships raided the east and southeast coast of England. One Zeppelin succeeded in reaching the outskirts of London, where explosive and incendiary bombs were dropped, and it is regretted civilian casualties occurred."

FAY ESCAPES FROM PEN

BOMB PLOTTER FLEES FROM
THE FEDERAL PRISON
AT ATLANTA.

Atlanta, Aug. 30.—Robert Fay, said to have been a former German army officer, convicted of conspiracy against the United States in connection with munition plots in New York, escaped from the federal prison here with William Knobloch, another prisoner.

Fay, Walter Scholz, his brother-in-law, and Paul Daecher were convicted in New York May 8 on charges of conspiring to sink steamships carrying munitions of war to the allies by attaching bombs to them. Fay was sentenced to eight years' imprisonment, Scholz to four years, Daecher to two years.

Refuses Shipments.

Dallas, Tex., Aug. 30.—The Missouri, Kansas & Texas railway has announced an embargo on all perishable goods and will not receive cattle shipments unless they can be delivered on or before Sunday morning. This action is to be taken because of the impending railway strike. Other railroads are expected to follow suit.

"Jeff" Davis' Bodyguard Dead.

Gulfport, Miss., Aug. 30.—Ben Williams, once bodyguard for Jefferson Davis, president of the Confederacy, is dead here. The negro was well known over the country because of his history, thousands of postcards bearing his picture being sold.

DISTANT PARTS OF EARTH HAVE BEEN SEARCHED

Products of Every Country in the
World Have Been Tested for
Tanlac Ingredients

With the epidemic of stomach trouble, catarrh, kidney and liver ailments that sweep over the country from time to time, there was plainly shown the necessity for a great reconstructive tonic.

As this need became more and more apparent, learned minds set to work to gather the ingredients for this tonic—one that would answer for the purposes of a general reconstructive tissue builder and blood maker.

The yield of the earth was carefully tested the mineral, the animal and the vegetable products, and, after careful analysis it was admitted that the vegetable kingdom possessed the much-sought-for elements, because it contained more life-giving properties.

To this end even the most remote parts of the world were searched for vegetable ingredients to make the greatest reconstructive tonic known to man; such was the birth of Tanlac.

That Tanlac has surpassed even the greatest expectation is proven a hundred times, a million times, by the statements from people who have taken it for indigestion, dizzy spells, sleeplessness, rheumatism, backache, neuralgia, stomach, kidney and liver ailments.

These statements contain overwhelming evidence in favor of Tanlac. They prove beyond the question of a doubt the reconstructive powers of Tanlac. They show facts to minds that are in the least skeptical. They leave no room for anything but the truth—that Tanlac is a wonderful builder.

Tanlac is now being introduced in Canfield at the F. A. Morris drug store.—adv.

NEW INVENTION CUTS HIGH COST OF GASOLINE

30 Gallons for \$1 Made Possible by
Carbonvoid—Also Removes
and Prevents Carbon.

MILLIONS USING IT

With the price of gasoline soaring and the ominous prediction that the upward movement may not halt short of a dollar a gallon, motorists are seeking the discovery of a new fuel element which actually saves 25 per cent. of fuel cost at a ridiculous price. "Carbonvoid" is the name of the new preparation and it is backed by the most reliable of all testimonials, the fact that it has been used by millions of motorists and has been found to be a saving army of oil.

Carbonvoid is manufactured and guaranteed by Lloyd's of America, Inc., New Jersey, and is distributed from the Carbonvoid Chemical Works of Bradley Beach, New Jersey. It is claimed for it that it absolutely eliminates carbon from cylinders, cylinder walls, piston heads, valves and without number have demonstrated that a teaspoonful of Carbonvoid to five gallons of gasoline will increase the mileage 4 to 7 miles the gallon. Lloyd's of America asks that Carbonvoid be used only in 25 gallons of gasoline, five dosages, and tests without number have demonstrated that the money will be refunded. In thousands of such tests, not a tube of Carbonvoid has been returned.

The purpose of Carbonvoid in the gas tank is to keep piston rings, cylinder walls and valves clean. Carbon voids on the cylinder after it has found a dirty spot on which to cling. Carbonvoid keeps cylinder walls and piston heads clean. A pinch of the product rolled on the palm of the hand will demonstrate its greasy properties. The prescribed dosage of Carbonvoid is one teaspoonful to five gallons. This dose will have its immediate effect on incipient cases of carbonizing. Where the trouble is more severe, however, five doses are what manufacturers prescribe as a fair test. A new automobile, as motorists know, will do an average of 25,000 miles without developing carbon trouble. Once cleaned, however, and usually 5,000 miles brings trouble that is not permanently corrected and cannot be.

Here is where Carbonvoid gets its life. It eliminates carbon trouble once and for all time. It gives more power, greater speed, makes starting easy, produces perfect ignition and uniform combustion. And it is a fuel saver.

Lloyd's of America guarantee that on a Ford will save 25 per cent. of fuel cost. If cars weighing from 2,000 to 3,000 pounds Carbonvoid guarantees to save four extra miles per gallon of gasoline and for heavy trucks, from one to two miles more.

Carbonvoid is especially a booster to Ford users in these days of the high cost of gasoline. Here is an example: C. F. Puckham of 140 Massachusetts avenue, Boston, went out in a Ford car with four persons. Into five gallons of gasoline he put one good teaspoonful of Carbonvoid. "And," he added in his letter, which is on file at the Lloyd's of America office, "I drove 100 2-1/2 miles on 3 1/2 gallons of gas." The best previous average record for that Ford was 18 miles per gallon.

Carbonvoid sells for \$1 a tube. Each tube contains 40 teaspoonfuls, enough to treat 200 gallons of gasoline. On the makers' guarantee that an average Ford will increase its mileage five miles to the gallon on Carbonvoid a tube of the preparation is equal to 50 gallons of gasoline.

If you are a business man, if you are a professional man, if you are employed at a daily wage, make up your mind to deposit weekly a certain sum of money in the bank. You'll be surprised how the sum will grow. Cash in bank gingers up the man who has it there. He has more confidence in himself. The business man is ready for a dull season. He is ready for an opportunity.

So is the professional man. The man who is working for a daily wage and who hasn't any money in bank frequently is fearful of a loss of his situation. He does not work as well or with the confidence in himself as does the man with something laid aside for a rainy day.

BUILD UP YOUR BANK ACCOUNT.

Canfield, Ohio TALKSONBANKING

THE WASTE OF MONEY

In the daily papers comes the story of the downfall of the widow of a prominent Wall Street man, who twice has been presented to British Royalty, lived on Fifth Avenue, was a social leader and a woman of the four hundred. In the brief six years of her widowhood she has wasted a fortune of over one hundred thousand dollars and now faces the charge of passing a worthless check. She says she has made a "sad mistake," but did the "best she knew how" with her money—put it in ill-advised business ventures, invested in doubtful securities and spent the rest in social aspirations.

Of lesser magnitude, but no less tragic, is the recent case of a German woman with three children, who in the short space of ten weeks has spent (not "invested") the fourteen hundred dollars received from her husband's wealth in an accident. During that time she has visited the savings bank on an average of every other day, drawing from twenty-five to fifty dollars each time.

Another woman who received a life insurance payment of two thousand dollars wasted her inheritance in two weeks at the races. Another who received a thousand dollars bedecked herself with jewelry and had to go back to the factory in three months. A certain youth received two thousand dollars as his share of his uncle's estate, quit work and lived the high life for a short time, and then went broke, as they all do.

The only redeeming feature of these processes is the fact that the waste of money comes itself, for soon there is no more to waste. The above-mentioned individuals have found it out. It matters not whether the sum be large or small, it seems an endless amount, but a little extravagance every day soon brings the fund to a state of exhaustion.

Life insurance companies have found upon investigation that a large proportion of their policy settlements are frittered away in the course of a few years. The hard work and the

sacrifices of the bread winner, in which the beneficiary usually has shared seem to count for naught when the settlement comes, and passes a considerable sum into irresponsible hands.

This is no indictment against womanhood, but as a sex they seem to have the knack of spending easy money fast. While a thrifty woman is the Lord's choicest creation, the thriftless one is His greatest bane. Bank men of experience will corroborate the conclusion that it is unwise to leave money to the wife in such a way as to tempt her to be improvident with it. The fortune first mentioned would have given the wife an income of at least five thousand a year for life, if properly invested, and the smaller amounts would have helped the beneficiaries over many a rainy day. The caution to the men in such matters is to so arrange affairs that the income and not the principal may be used.

The best legacy you can leave your wife is a well-invested estate. If you love her you can prove it best by not giving her absolute control of her legacy, but by saving her from all the pitfalls that are open to the unsophisticated and the unwary. Save her from herself, her friends and the slick promoter who dazzles her with alluring tales of large returns from her investments.

Many a man has spent a lifetime providing for these he must leave behind, and in his provision caused their own downfall. It is no reflection upon the woman to make these statements, but they are cruel truths borne out by everyday experience. You do well to consider what might happen to those who survive you if they fall prey to the temptations that beset those mentioned above. The best estate you can leave is the certainty that the future will not find those you love in want through their own folly, made possible by your own shortsightedness. Thrift not only prepares for the future, but safeguards the future, and easy money needs such protection.—adv.
